

GODSPEED, CARLOS!

Last Friday, our friend and colleague Carlos Mulet officially retired from Atlantic Bearing Services in Miami. Carlos had been an important part of the Quality Control team for the last two years and collaborated in many important projects during that time.

Thanks for all your hard work and dedication, Carlos! We wish you all the best in this new phase of your life! You will be missed!

Happy Retirement Carlos!

KEEPING YOU UPDATED ON OUR LATEST CHANGES

*Welcome to the second issue of our ABS People News!
We are happy to share the following news regarding our team.*

ABS Engineer concludes training from Mobius Institute.

Since July, Allan Navarro, Senior Field Engineer based in Costa Rica, has been working hard on a certification for Vibration Analysis Category II, by the Mobius Institute. This month he successfully completed his training in September.

Category II Vibration Analysts are qualified to perform basic vibration analysis using singlechannel instruments according to established procedures, set-up instruments, and maintain a database of results.

He now has an international certification set in his sights for the near future.

Congratulations Allan!

On to Module IV...

Eugenio Galban, engineer on our China Team, and Allan Navarro have successfully completed Module III training for Advanced Concepts of Bearing Technology.

This Module includes in-depth content about: Fundamentals and applications of Fatigue Life Theory, as well as problems and solutions; as well as Bearing Friction and ISO Ref Speeds, problems and solutions.

Under the guide and instruction of Professor Escaraverino, these two engineers continue to expand their knowledge base in order to provide the highest quality of service and to our customers.

Keep up the good work, gentlemen!
