QUALITY

ACB USA Bearings emerges as a new brand of highly engineered bearings. Our philosophy is to offer our customer a personalized solution that includes pricing, quick deliveries, small scale production and changes to standard bearing designs for a specific customer's need.

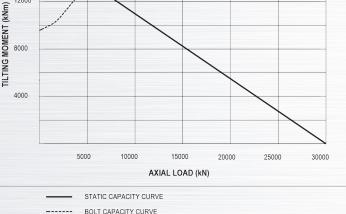

Our success has been enhanced by maintaining a consistent quality standard throughout the wide range of special bearings manufactured.

Highest technology **Engineering based on customers requests**

PRODUCTS

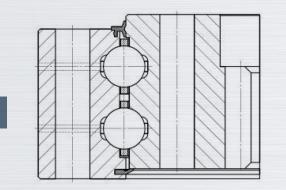

ACB USA slewing ring product range examples:

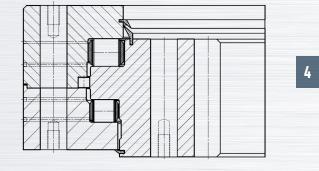

- 1 Single-row ball bearing slewing rings with internal gear
- 2 Single-row ball bearing slewing rings with external gear
- 3 Double-row ball bearing slewing rings with internal gear
- 4 Single-row cross-roller bearing slewing rings with external gear
- 5 Three-row roller bearing slewing rings Axial-roller bearings with internal gear
- 6 Double-row slewing rings Roller/ball combination bearings with external gear

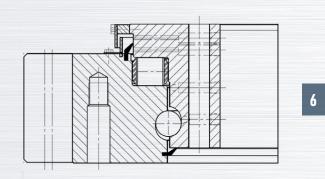

APPLICATIONS

ACB slewing rings are used in diverse applications including: construction equipment, cranes, wind-power generation, mining loaders and reclaimers, robots, manipulators, machine tools, radars, packaging machinery and others.
